

## RMD Report to Blue Bars

Hope everyone is having a fun summer with your Corvettes! Nashville 2007 Convention was great as was expected from such worthy hosts. Thank you to John and Sue McGee and their talented help. They did a super job under great duress. We had an increase of 24 members since February. I hope that now our Corvette season is under way that we will be able to add many more members. So while you are out cruising keep your eyes open for new prospects. Also, don't forget to sign up children to FCOA. We had an increase of 17 members since February. That seems small but was larger than any other Region. We are still behind the Midwest by 73 children. You can find information on FCOA within this Blue Bars or on the web site. Also, remember that the West Region gives out scholarships to members children and grandchildren. Check out the West Region web site for more information or contact me at my e-mail address. We will award the scholarships at our September West Region meeting. Applicants who win the National scholarship will not be eligible for the West Region scholarship. Happy Corvetting! Hope to see you out and about.

Respectfully submitted,

Diane Bowen
